

PLATINE FIBRE RAG

310 gsm

No Optical Brighteners

Platine Fibre Rag is the combination of the premium 100% cotton Platinum paper that Canson has supplied for many years to the original Platinum and Platine photographic market, with the latest microporous coating, making the traditional darkroom paper now available for your digital printing.

Setting the benchmark for Digital Darkroom papers, Platine Fibre Rag provides the aesthetic and feel of the original F-Type Baryta Fibre paper, having a true pure white tone without using optical brighteners that are known to affect the longevity of digitally produced images.

Platine Fibre Rag's extremely high Dmax and exceptional grey tones make it the product of choice for the more discerning black and white as well as colour photographic prints.

Product Features & Benefits
